OSU-007

Bill OSU-007, An act relating to disabled parking passes

This bill dealt primarily with removing the parking pass fee for those who are disabled with proof of a disability sticker issued by the state instead. The bill specifically defines a public universities, disabilities, and state issued versus handicapped placards. If not followed the penalty program system fined public universities ten thousand dollars that would go into Oklahoma's Department of Safety Restricted Revolving Fund that would cycle the money back to projects surrounding funding disability parking provisions.

"Those disabled shouldn't have to pay for student parking on top of the state issued pass" -Senator Johnson
